

Why is Early Canine Cancer Screening so Important?

At Oncotect, it's our mission to make it simple and convenient to screen for the risk of the most common cancers early enough for you to have time to make informed decisions for your companion.

Cancer is Very Common in Dogs

Almost 50% of dogs over the age of 10 will develop cancer, with over 6 million dogs diagnosed each year.

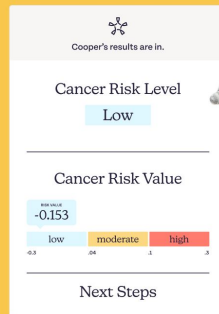

Knowing Gives You More Time

No matter if you want to know so you can make the most of your pet's time or so you can opt for treatment, knowledge is time.

Detect and Manage Your Dog's Pain

Dogs are known for hiding their pain. Screening early allows you to detect that pain and provide a better quality of life for your companion.

The Oncotect Difference

Easy

Affordable

Fast & Accurate

Convenient

GIVING YOU MORE TIME TO LOVE YOUR DOG

About Oncotect

Founded by a team of general practice veterinarians, veterinary oncologists, scientists, and entrepreneurs, Oncotect's mission is to give pet parents more time to love their dogs. The science behind Oncotect has been published in a peer-reviewed veterinary journal and is backed by some of the leading investors and institutions in the pet care industry.
